Profile

I am a skilled Blockchain developer with 6+ years of experience who has recently helped to develop and launch a series of decentralized applications (DAPP) publishing their data and interacting with the blockchain.

As a blockchain developer, I act as the important role in crafting, developing, testing, going live and maintaining the chain protocol.

Work experience

03/2018 - 11/2021, Blockchain Developer, Pearl Data Firm, in Tokyo, Japan

- Worked on the development and implementation of new blockchain technologies and completed professional market research.
- Built and maintained strategic relationships with potential investors and business partners and brainstormed new ideas.
- Cooperated with colleagues from the other departments and participated in the creation and testing of new software and decentralized applications.
